

M365 Copilot — Finance Session

Participant Hands-On Guide | FY 2026-27

Bajaj Finance Limited | Powered by Technizer Edge

👋 **Welcome!** This guide walks you through 5 live exercises using M365 Copilot Chat. Your trainer will demonstrate each one first — then it's your turn to try. All you need is access to **M365 Copilot Chat** and the shared Excel file.

📁 Your Data File

File name: BFL_Finance_Copilot_Data.xlsx

Sheet Tab	What's Inside
Financial Statements	Quarterly P&L — revenue, expenses, profit, ratios
Budget Analysis	12 departments — budget vs actuals, variance
Expense Analysis	14 expense categories — 6-month trend
Financial Reporting	15 KPIs — monthly actuals vs targets
Financial Forecasting	3-scenario forecast — Base, Bull, Bear

🔗 **How to attach the file in Copilot Chat:** Type `/` in the chat box → select the Excel file → it attaches automatically

⚡ The Meta Prompt — Your Starting Point

Before every exercise, paste this Meta Prompt first. Copilot will generate a ready-to-use Working Prompt for you. Then attach the file and run that Working Prompt.

Act as a Microsoft 365 Copilot prompt expert specialising in finance analysis.

I am a [YOUR ROLE] at Bajaj Finance Limited.
I need to [WHAT YOU WANT TO DO].
My audience is [WHO WILL READ THIS].
The data I have is [BRIEF DESCRIPTION OF YOUR EXCEL SHEET].

Write me a detailed, structured Copilot prompt I can use in M365 Copilot Chat.
The prompt should specify: role, task, context, data format, output format, and tone.

✏️ **Fill in the brackets before pasting.** Each exercise below gives you the exact words to use.

🔄 How Every Exercise Works

Step 1 → Paste the Meta Prompt (fill in your role, goal, data)
Step 2 → Read the Working Prompt Copilot generates
Step 3 → Attach the Excel file using `/`

Step 4 → Paste the Working Prompt → see the output
Step 5 → Try your own variation!

Exercise 1 — Financial Statement Summarisation

Sheet to use: Financial Statements **Your role:** Finance Controller **Time:** ~10 minutes

Step 1 — Paste this Meta Prompt

Act as a Microsoft 365 Copilot prompt expert specialising in finance analysis.

I am a Finance Controller at Bajaj Finance Limited.

I need to summarise our quarterly P&L into a concise executive brief for the CFO.

My audience is the CFO and the Management Committee.

The data I have is an Excel file with a consolidated P&L showing revenue, expenses, EBITDA, PAT, PAT Margin, NIM, ROA, and Cost-to-Income Ratio across Q1 to Q4 of FY 2026-27.

Write me a detailed, structured Copilot prompt I can use to complete this task.

The prompt should specify: role, task, context, data format, output format, and professional tone.

Step 2 — Read what Copilot generated

Take 30 seconds to read the Working Prompt. Does it mention:

- ☐ A specific role (Finance Controller / Analyst)?
- ☐ The output format (summary, table, bullet points)?
- ☐ The audience (CFO, Management Committee)?

Step 3 — Attach the file and run

Attach `BFL_Finance_Copilot_Data.xlsx` → paste the generated Working Prompt → hit send.

Step 4 — What to look for in the output

- Revenue trend across Q1–Q4
- PAT and PAT Margin movement
- Key ratio interpretation (NIM, ROA, Cost-to-Income)
- Management insights

Try This Yourself

After the demo, modify the Meta Prompt and ask Copilot to:

"Focus only on Q3 and Q4 — identify why PAT margin improved"

Exercise 2 — Budget Analysis

Sheet to use: Budget Analysis **Your role:** Finance Business Partner **Time:** ~10 minutes

Step 1 — Paste this Meta Prompt

Act as a Microsoft 365 Copilot prompt expert specialising in finance analysis.

I am a Finance Business Partner at Bajaj Finance Limited.

I need to review H1 budget vs actuals across all departments and identify which departments are over-spending, under-spending, and what action to take.

My audience is the CFO and departmental cost centre heads.

The data I have is an Excel file with 12 departments showing annual budget, Q1 and Q2 budget vs actuals, YTD variance in ₹ Crores, and a status flag for each department.

Write me a detailed, structured Copilot prompt I can use to complete this task.

The prompt should specify: role, task, context, data format, output format, and professional tone.

Step 2 — Read what Copilot generated

Check if the prompt asks for:

- ☐ Department-wise classification (over / on-track / under)?
- ☐ ₹ variance figures?
- ☐ A recommended action per department?

Step 3 — Attach the file and run

Attach `BFL_Finance_Copilot_Data.xlsx` → paste the generated Working Prompt → hit send.

Step 4 — What to look for in the output

- Which departments are over budget (●)
- Which are on track (●)
- Recommended action per department
- H2 risk flag

💡 Try This Yourself

"Which single department poses the highest risk of full-year budget overrun? Give me 3 reasons."

Exercise 3 — Expense Analysis

Sheet to use: Expense Analysis **Your role:** Finance Controller **Time:** ~10 minutes

Step 1 — Paste this Meta Prompt

Act as a Microsoft 365 Copilot prompt expert specialising in finance analysis.

I am a Finance Controller at Bajaj Finance Limited.

I need to analyse 6 months of expense data to identify spending patterns, unusual month-on-month increases, and cost optimisation opportunities.

My audience is the CFO and COO.

The data I have is an Excel file with 14 expense categories (Fixed and Variable) showing monthly spend from April to September 2026, with MoM change % and % of total spend.

Write me a detailed, structured Copilot prompt I can use to complete this task.
The prompt should specify: role, task, context, data format, output format, and professional tone.

Step 2 — Read what Copilot generated

Check if the prompt asks for:

- ☐ Fixed vs Variable split analysis?
- ☐ MoM spike identification?
- ☐ Cost optimisation recommendations?

Step 3 — Attach the file and run

Attach `BFL_Finance_Copilot_Data.xlsx` → paste the generated Working Prompt → hit send.

Step 4 — What to look for in the output

- Top 5 expense categories by spend
- Categories with consistent MoM growth
- Months with unusual spikes
- 3 cost optimisation suggestions

Try This Yourself

"Which 3 Variable expenses grew the fastest in H1? What could we do to control them in H2?"

Exercise 4 — Financial Reporting

Sheet to use: Financial Reporting **Your role:** Finance Lead **Time:** ~10 minutes

Step 1 — Paste this Meta Prompt

Act as a Microsoft 365 Copilot prompt expert specialising in finance analysis.

I am a Finance Lead at Bajaj Finance Limited responsible for the monthly reporting pack.
I need to prepare an H1 performance summary covering 15 KPIs – tracking actuals vs targets and highlighting what is on-track, at-risk, and exceeding plan.

My audience is the Board of Directors and CFO.

The data I have is an Excel file with 15 KPIs tracked monthly from April to September 2026, with H1 actuals, H1 targets, and a variance column.

Write me a detailed, structured Copilot prompt I can use to complete this task.

The prompt should specify: role, task, context, data format, output format, and professional tone.

Step 2 — Read what Copilot generated

Check if the prompt asks for:

- ☐ KPI classification (on-track / at-risk / trailing)?
- ☐ Board-level headline numbers?
- ☐ An executive narrative paragraph?

Step 3 — Attach the file and run

Attach `BFL_Finance_Copilot_Data.xlsx` → paste the generated Working Prompt → hit send.

Step 4 — What to look for in the output

- Green / Amber / Red KPI classification
- 3 Board headline numbers
- Improving trends across H1
- H2 watch items

Try This Yourself

"Write a 3-sentence CFO commentary on NPA trends and Collection Efficiency for the Board pack."

Exercise 5 — Financial Forecasting Support

Sheet to use: Financial Forecasting **Your role:** FP&A Manager **Time:** ~10 minutes

Step 1 — Paste this Meta Prompt

Act as a Microsoft 365 Copilot prompt expert specialising in financial planning and analysis.

I am an FP&A Manager at Bajaj Finance Limited.

I need to review our FY 2026-27 financial forecast across three scenarios – Base, Bull, and Bear –

and prepare a structured planning brief for the CFO and Strategy team.

My audience is the CFO, FP&A Head, and Strategic Planning Committee.

The data I have is an Excel file with forecast assumptions and a projected P&L for FY 2026-27 showing PAT, NII, EBITDA, EPS, and AUM across all three scenarios with FY25-26 actuals as baseline.

Write me a detailed, structured Copilot prompt I can use to complete this task.

The prompt should specify: role, task, context, data format, output format, and professional tone.

Step 2 — Read what Copilot generated

Check if the prompt asks for:

- ☐ Side-by-side scenario comparison?
- ☐ Sensitivity / key assumption analysis?
- ☐ CFO decision points?

Step 3 — Attach the file and run

Attach `BFL_Finance_Copilot_Data.xlsx` → paste the generated Working Prompt → hit send.

Step 4 — What to look for in the output

- Base vs Bull vs Bear comparison table
- Key assumptions driving each scenario
- Bear Case risk and PAT impact
- 3 CFO decision points for H2

 Try This Yourself

"What is the PAT difference between Base Case and Bear Case? What is the single biggest assumption driving that gap?"

 Prompt Writing Quick Reference

Use this card when writing your own prompts after the session.

Element	Question to Ask Yourself	Example
Role	Who should Copilot act as?	"You are a Finance Controller at BFL..."
Task	What exactly do I want?	"Analyse the Q3 PAT decline..."
Context	What background does Copilot need?	"Q2 PAT was 8.4%, Q3 dropped to 7.9%..."
Format	How should the output look?	"Produce a 5-point brief with ₹ figures..."
Tone	Who is the audience?	"CFO-level, precise, no jargon..."
